

REGISTRATION FOR UPCOMING TENDER

National Energy Corporation of Trinidad and Tobago Limited (“National Energy”) is a state enterprise with the core function of conceptualizing, promoting and facilitating the development of new energy-based and downstream industries in Trinidad and Tobago.

National Energy, as a member of The NGC Group, is now issuing Tenders/RFQs/RFPs via The NGC Group’s new online procurement tool, SAP Ariba (“Ariba”).

To participate in any upcoming Tender/RFQ/RFP, companies must be registered with The NGC Group’s Ariba portal.

National Energy, on behalf of the Ministry of Energy and Energy Industries, is undertaking a Project for initiatives in Renewable Energy and Energy Efficiency. In relation to this Project, National Energy intends to issue an RFP for the provision of **Consultancy Services for the Development and Conduct of Educational Programme on Renewable Energy/Energy Efficiency**. The abridged Scope of Services for the RFP is as follows:

The Renewable Energy and Energy Efficiency Education Project was conceptualized to address the need for capacity building in the field of Sustainable Energy. The aim is to increase knowledge and competencies in the use of alternative sources of energy, through a comprehensive education programme in the nation’s schools. This Scope of Services entails the implementation of a STREAM education programme, along the themes of Sustainable Energy and Disaster Preparedness, that focuses on teacher training programmes, development of resource kits, school workshops and public outreach, a collaborative online teaching and learning site and a showcase/competition for students.

Additionally, the Service Provider is expected to provide training and certification for primary and secondary school teachers with a focus on Renewable Energy Technologies and disaster preparedness, to develop teaching modules, and to create activities which will assist students in developing skills in creative thinking, innovation, critical thinking, communication, problem solving, collaboration, ICT and self-directed learning in teachers and students.

Interested parties **MUST** submit the following information by **Monday 3rd January 2022** to **SecretaryFTC@nationalenergy.tt**, after which an e-mail with a link to complete the online registration within a specified timeframe will be sent:

- Company Name
- Name of Primary Contact
- Designation of Primary Contact
- Contact Number
- E-mail Address

Failure by your company to complete the registration process in a timely manner will debar your company from participating in the upcoming RFP.
