TT gets first low-exhaust tug

ENERGY Minister Stuart Young welcomed on Tuesday the country's first low-exhaust tug to the National Energy Corporation's vessel fleet.

A commissioning ceremony took place at the Hyatt Regency, Port of Spain and was attended by stakeholders from the maritime and energy sectors.

The new 60-ton bollard-pull tug, named National Energy Resilience, is IMO Tier III-certified with technologies that reduce its nitrous oxides emissions by 80 per cent – making it the cleanest tug operating in TT, and at this time, only the second vessel in the region.

National Energy chairman Dr Joseph Khan, stated: "National Energy Resilience is different from any other tug in our fleet. It is International Marine Organisation (IMO) Tier III-certified. This standard was designed to improve air quality and protect public health by controlling emissions from ships and vessels.

"We are delighted to say that the National Energy Resilience uses technologies that reduces its nitrous oxides emissions by 80 per cent. This is a significant reduction in emissions of a green-house gas that is 300 times more potent than carbon dioxide."

He said National Energy's decision to adhere to the IMO-Tier III standard was completely voluntary.

Minister Young said, "While I regularly and openly repeat the importance of natural gas in the energy transition, I want to reassure that this Government is fully committed to climate action through reduction of our country's greenhouse gas

emissions."

The minister boasted that TT is no stranger to being first movers "particularly within the energy sector." He commended National Energy for meeting its mandate of developing and facilitating sustainable energy industries through the implementation of several initiatives that support Government's efforts to decarbonising the energy sector.

The National Energy Resilience has secured all documentation required to operate and is now available for immediate hire.

PUBLIC NOTICE

Tuesday 28th February, 2023

TEMPORARY TRAFFIC DISRUPTION WESTERN MAIN ROAD

The Ministry of Works and Transport wishes to advise the general public that there will be a temporary traffic disruption along **Western Main Road, from Roxy Roundabout to Long Circular Road (Courts)**. This disruption commenced on **Tuesday 28th February, 2023** and is expected to be completed on **Monday 13th March, 2023**. This has become necessary to facilitate **Road Rehabilitation works**.

**Hours of Work:
8:00 PM to 4:00 AM**

In light of the above, motorists are advised to comply with the following:

- Proceed with caution and observe all directional signs and barriers.
- Motorists should drive at a reduced speed on approaching the work zone.
- Comply with instructions from Police Officers on site to facilitate a safe and orderly flow of traffic.
- Be aware of heavy equipment entering and exiting the site.
- Drive with caution on all milled (possibly uneven) surfaces.

The Ministry of Works and Transport regrets any inconvenience caused and thanks the public for its continued cooperation. For further information, please visit the Ministry of Works and Transport's website at www.mowt.gov.tt or call the **PURE Unit at 638-2350 or 2256/675-4052**.
