

National Energy's REnewable Minds Portal is the Winner of the 2022 AMCHAM T&T Award for Outstanding OSH and Environment Project (Energy - Large Category)

The REnewable Minds Portal encourages our next generation of leaders to become more responsible in their use of energy as we journey towards a low-carbon future.

National Energy's Learning Management System (LMS) also received Honourable Mention within the same category.

Congratulations to the National Energy Team on this achievement!
