Energy ministry to conduct offshore wind assessment

As the Wind Resource Assessment Programme (WRAP) implemented by the previous government ends, Energy Minister Roodal Moonilal said the ministry will continue to pursue offshore wind development.

He said the ministry will be issuing a request for proposals to conduct an offshore wind resource assessment programme for TT.

"It is my intention to have bankable data available for investors by 2026, identifying the best sites both for on-shore and offshore wind deployment," he said, delivering an address at the Validation Workshop for the European Union funded National Wind Energy Action Plan at the National Energy head office in Couva.

The workshop, hosted by the ministry, aims to progress the action plan

for the national wind energy through presentations and discussions.

In his address, Moonilal said wind is a key resource for utility-scale power development in TT.

He noted the progress of WRAP, which is set to expand with two additional wind measurement devices in the Los Iros/ Santa Flora and Toco/ Manzanilla areas by the end of the week.

National Energy president Dr Vernon Paltoo said, "As the executing agency for WRAP, National Energy remains fully committed to our ministry, our partners and the people of TT.

"We are determined to ensure that our energy transition remains focused, ambitious and above all, achievable."

CTO appoints new deputy director of tourism

The Barbados-based Caribbean Tourism Organisation (CTO) has announced the appointment of Trinidadian Narendra Ramgulam as deputy director of sustainable tourism.

In a release on July 24, CTO said the newly created position aligns with its strategic focus on sustainable and regenerative tourism development.

Ramgulam, who joined CTO last year as a sustainable tourism consultant, has played an integral role in supporting the organisation's vision for a more resilient and inclusive tourism sector.

"We are pleased to welcome Ramgulam to this new leadership role," said CTO secretary-general Dona Regis-Prosper.

"His contributions over the past year have been instrumental, and we are confident that his expertise, innovation and deep passion for sustainability will continue to elevate our work across the region."

In his new capacity, Ramgulam will lead the strategic development and implementation of initiatives aimed at promoting and enhancing sustainable and regenerative tourism across CTO member countries.

His portfolio will include developing regional strategies and policies, strengthening stakeholder capacity, showcasing success stories and best practices, and monitoring the effectiveness of sustainability programmes.
