CORPORATION OF TRINIDAD AND TOBAGO

## Progress

Isn't just about innovation...

***It's about intention***

**Guided by strong leadership,  
grounded in results.**

Launching the Caribbean's first Green Hydrogen Roadmap.

Facilitating collaboration and economic partnerships between Trinidad and Tobago, Guyana, and Suriname for regional energy security.

Advancing maritime decarbonisation with Trinidad and Tobago's first low-emission tugboat, driving cleaner port operations and positioning the country as a leading hub for sustainable energy logistics.

Pioneering sustainable infrastructure, The Honourable Stuart R. Young SC, inaugurates the first EV charging station at Queen's Hall, highlighting National Energy's delivery of tangible low-carbon solutions for national development.
